Dear Kostadin:

It is with this letter that we wish to thank you for your help in developing the new Inspection Programs for our Chrysler JA Bracket CAD Models without the aid of part prints.

The new methods of inspection have obviously created many new problems for our industry, both technically and logistically. The help your company gave us is greatly appreciated and your insight into future trends has been invaluable.

I wish to let you now that all inspection jobs were successfully performed with your CMM Programs and we look forward to continuing to work with you in the future.

Best regards,  
AMCAN CASTINGS LIMITED
